

Chris Colbert

Chairman & Chief Executive Officer
Elementl Power

Profile

Chris Colbert is Chairman and Chief Executive Officer of Elementl Power, where he leads the company's strategy and execution to develop and deploy new nuclear energy projects. He brings more than three decades of both domestic and global experience in energy project development, finance, and operations for commercial-scale nuclear generation.

Professional History

Prior to joining Elementl, Colbert spent 12 years at NuScale Power, serving as Chief Operating Officer, Chief Strategy Officer and Chief Financial Officer. During his tenure, he secured multiple U.S. Department of Energy grants and awards and led NuScale's transition to a publicly traded company.

Earlier in his career, Colbert served as senior vice president at UniStar Nuclear Energy, where he provided executive oversight for the development, permitting, contracting and financing of new nuclear projects.

He has previously held senior roles at GenPower Services, InterGen and Bechtel, where his work included the development and financing of large-scale power generation projects in the United States and internationally. He began his career in corporate finance at GE.

Education

Colbert holds a Master of Business Administration from the University of California, Berkeley's Haas School of Business and bachelor's degrees in both Electrical Engineering and Computer Science from the Massachusetts Institute of Technology.
